Dear School Community,

This report provides a view of the arts education opportunities you are providing for your students based on your responses to the *Annual Arts Education Survey* in May 2016 and includes information from the New York City Department of Education's databases.

The *Annual Arts in Schools Report* is an important part of the New York Department of Education's efforts to ensure that schools are providing students with high-quality arts education they need and deserve. The report has been created to help school leaders, parents, and teachers understand how they can improve student learning in the arts, building on the Blueprint for Teaching and Learning in the Arts which provides detailed PreK-12 curricula aligned with State standards: http://schools.nyc.gov/offices/teachlearn/arts/blueprints.html.

### New York State Guidelines and Requirements for Arts Education

The New York State Education Department (NYSED) has specific guidelines and requirements for arts instruction.

At the **elementary level**, in grades PreK-6, students should receive instruction in dance, music, theater, and visual arts. In addition, NYSED recommends that students spend a specific allocation of hours learning in the arts.

At the **middle school level**, in grades 7 and 8, the NYSED expects that students achieve, by the end of grade 8 one half-unit in dance, music, theater, or visual arts, and second half-unit in a second arts discipline.

At the **high school level**, the NYSED requires that all students graduate having taken at least two credits in the arts (dance, music, theater, and/or visual arts).

## School's Arts Program Description

**This school has submitted the following description of its arts program:**
It is the goal of P.S. 312 to provide an arts education program that enhances the appreciation of the arts, while integrating curriculum based content areas and embedding the Common Core State Standards. We work towards meeting the Standards for the Arts by involving staff, parents, professional artists, arts organizations, cultural institutions and other community resources. We recognize the importance of the positive impact of the arts on the healthy development of students, both intellectually and socially. Integration of arts education can effectively engage students in all areas of study, helping to raise student achievement, as well as develop students' creative abilities to foster aesthetic appreciation. In addition to our standard arts program , we provide an intense weekly study in enrichment clusters for selected students in chorus, band, theater and visual arts, all of which culminate in a project or performance for a targeted audience.
