Dear School Community,

Parents, teachers, and students know best how well each school helps students to learn. This report provides a view of your school's learning environment, based on community members' responses to the Learning Environment Survey in May and June 2007.

The Learning Environment Survey is an important part of the New York City Department of Education's effort to improve student outcomes and to promote school empowerment and accountability. Your school's scores compared to those of other schools are part of your school's grade on the City's annual Progress Report.

This report is designed to help parents, teachers, students, and school leaders identify concrete changes each school can make to improve student learning. Working together, we can improve our schools.

Joel I. Klein
Chancellor, New York City Department of Education
