2013-2014

The School Quality Snapshot provides families with information about the quality of a school by taking a balanced look at the school's practices, environment, and performance. The report is based on multiple measures, including a review by an experienced educator, survey responses of students, teachers, and parents, and a variety of achievement and progress measures. The report also helps families identify what the school is doing well and areas for doing better.

This report, along with the Middle School Directory, can help families with the school admissions process by helping them identify which schools best meet the interests and needs of their child. The Snapshot also provides useful information to families about their child's current school so that families can have meaningful conversations with school leaders about how to make the school a better place to learn.

SCHOOL OVERVIEW (From Directory)

Students enjoy being immersed in project-based learning activities that allow them to go on trips and develop strong computer literacy skills. They also love our Advisory Program and Student Government, which provide multiple opportunities for them to express their views and build school spirit through a variety of special events. Our school is a hub of daytime, after-school and weekend activities that combine to create an intimate and child-centered environment that challenges students academically, while allowing them to explore their talents and interests. With fewer than 300 students enrolled each year, we are able to improve academic achievement for our students by personalizing the learning process for each child.
