2013-2014

The School Quality Snapshot provides families with information about the quality of a school by taking a balanced look at the school's practices, environment, and performance. The report is based on multiple measures, including a review by an experienced educator, survey responses of students, teachers, and parents, and a variety of achievement and progress measures. The report also helps families identify what the school is doing well and areas for doing better.

This report, along with the Middle School Directory, can help families with the school admissions process by helping them identify which schools best meet the interests and needs of their child. The Snapshot also provides useful information to families about their child's current school so that families can have meaningful conversations with school leaders about how to make the school a better place to learn.

Each academy gives students an opportunity to work with skilled, flexible, and committed teachers and administrators. Students also appreciate that they are able to communicate with the school community through the school's website, www.Berta49.org. A parent of a recent 8th grade graduate wrote in a letter, "My son has developed into a mature, creative and critical thinking young man in his three years at Dreyfus...
