2013-2014

The School Quality Snapshot provides families with information about the quality of a school by taking a balanced look at the school's practices, environment, and performance. The report is based on multiple measures, including a review by an experienced educator, survey responses of students, teachers, and parents, and a variety of achievement and progress measures. The report also helps families identify what the school is doing well and areas for doing better.

This report, along with the High School Directory, can help families with the school admissions process by helping them identify which schools best meet the interests and needs of their child. The Snapshot also provides useful information to families about their child's current school so that families can have meaningful conversations with school leaders about how to make the school a better place to learn.

SCHOOL OVERVIEW (From Directory)

Our small school setting and diverse student body offers a challenging academic program that emphasizes cultural awareness across the disciplines. We are a community of enthusiastic educators with tight-knit grade level and department teaching teams. Our small class size (usually 22-25 students) helps students master their coursework. They graduate as socially conscious leaders, equipped with the intellectual tools and academic and critical thinking skills necessary to make meaningful change in today's dynamic, interdependent world. Our full-time college advisor and our guidance counselors assist all students in planning for college and the world of work.
