2013-2014

The School Quality Snapshot provides families with information about the quality of a school by taking a balanced look at the school's practices, environment, and performance. The report is based on multiple measures, including a review by an experienced educator, survey responses of students, teachers, and parents, and a variety of achievement and progress measures. The report also helps families identify what the school is doing well and areas for doing better.

This report, along with the Middle School Directory, can help families with the school admissions process by helping them identify which schools best meet the interests and needs of their child. The Snapshot also provides useful information to families about their child's current school so that families can have meaningful conversations with school leaders about how to make the school a better place to learn.

SCHOOL OVERVIEW (From Directory)

Thurgood Marshall Academy (TMA) offers a small middle school learning program that allows students to work through adolescence in a nurturing environment. Staff and students are focused on the whole student (academics and developmental) and are committed to students on all academic levels. TMA provides ongoing communication between parents and school staff. TMA's electronic grading system, Gradebook, provides parents with a hands-on tool to identify student assignments and track performance. In addition, TMA's focus on college preparedness affords students the opportunity to visit numerous college campuses and see themselves as college-bound students...
