2013-2014

The School Quality Snapshot provides families with information about the quality of a school by taking a balanced look at the school's practices, environment, and performance. The report is based on multiple measures, including a review by an experienced educator, survey responses of students, teachers, and parents, and a variety of achievement and progress measures. The report also helps families identify what the school is doing well and areas for doing better.

This report, along with the Middle School Directory, can help families with the school admissions process by helping them identify which schools best meet the interests and needs of their child. The Snapshot also provides useful information to families about their child's current school so that families can have meaningful conversations with school leaders about how to make the school a better place to learn.

SCHOOL OVERVIEW (From Directory)

Based on a commitment to meet the societal need for qualified health care professionals, we provide students with quality instruction and clinical experiences. Students gain the knowledge and skills necessary to become members of a health care team. Our school community, made up of dedicated staff and parents, supports all students and provides a solid foundation for their success. Parents like that they are kept informed, empowered and engaged. Our partnership with Health Occupations Students of America (HOSA) has contributed to providing our students with the leadership and communications skills they need in order to be college ready.
