2013-2014

The School Quality Snapshot provides families with information about the quality of a school by taking a balanced look at the school's practices, environment, and performance. The report is based on multiple measures, including a review by an experienced educator, survey responses of students, teachers, and parents, and a variety of achievement and progress measures. The report also helps families identify what the school is doing well and areas for doing better.

This report, along with the High School Directory, can help families with the school admissions process by helping them identify which schools best meet the interests and needs of their child. The Snapshot also provides useful information to families about their child's current school so that families can have meaningful conversations with school leaders about how to make the school a better place to learn.

SCHOOL OVERVIEW (From Directory)

The School of the Future is a student-centered and challenging academic school with the goal of preparing all graduates to enter the college or profession of their choice. Our students learn to think critically and solve problems in a supportive environment. We challenge our students to exceed the expectations set by the New York State Board of Regents by preparing them for research-based exhibition presentations in order to graduate.
