# NYC School Survey 2013-2014 Report

**P.S. 199 Jessie Isador Straus**

Principal: KATY ROSEN
School Type: Elementary School
School DBN: 03M199

Dear Members of the School Community,

The NYC School Survey Report shares parent, student, and teacher responses to the NYC School Survey. In this year's report, survey questions are organized and reported as they relate to the three broad categories of the Quality Review Rubric [Instructional Core, School Culture, and Systems for Improvement]. This report does not replace the Quality Review, but rather, the use of familiar language should help school communities use feedback to support a dialogue around school improvement.

Taking the time to reflect on our school's strengths and areas for growth is an important step in improving the teaching and learning environment in our schools. Please share, discuss, and reflect upon your school's report and use the information as you plan together for the continued success of your school.

Carmen Fariña
Chancellor

## What do the colors mean?

These colors indicate how survey satisfaction at this school compares to the satisfaction of all Elementary Schools this year. Green indicates scores above the average, gray indicates average, and red indicates scores below the average.

This year, constituents generally reported high levels of satisfaction across the City. Therefore, it is possible to have positive survey responses and be below average compared to other schools. Readers should consider the survey responses in this report both on their own and in the context of responses from other schools.

Responses to each question are reported as percentages. The most common response to each question is displayed in bold print. The positive responses are reported as a percentage to the right of each question.
