School Overview

The Academy of Urban Planning helps students use their leadership abilities to achieve academic success. We work to forge a lasting spirit of community where students, parents, and guardians are welcome, teachers and staff work collaboratively, and all are engaged as partners to provide an exemplary education for our students. We provide students with the academic and social tools they need to pursue goals by stimulating their interests in learning, discovery and self-expression. The urban planning, theme-based curriculum takes students out of the classroom and into their communities to develop skills that will move them toward higher education and careers, while at the same time tapping into their innate curiosity towards the world around them.
