School Overview

The Laboratory School of Finance and Technology sets a high academic bar, challenging students to expand their visions of themselves both academically and personally. Through partnerships with outside organizations students learn experientially by connecting with professionals that help them put their textbook knowledge to work in the real world. Students pick an academic focus in either finance, technology, or language studies and graduate with a college and career ready skill set. We have a one-to-one Chromebook program, enabling all students to access technology in the classroom and at home. As a Consortium school, all courses place emphasis on research and writing, culminating in Performance Based Assessment Tasks. In addition, through a partnership with Blue Engine, all students receive individualized support in their ninth and tenth grade English and Math courses.
