NYC School Survey 2015-2016 Report

The School for Inquiry and Social Justice

Principal: A Cyprys
School Type: Middle School
School DBN: 08X337

Dear Members of the School Community,

The NYC School Survey Report shares parent, student, and teacher responses to the NYC School Survey. In this year's report, survey questions are organized and reported as they relate to the six elements of the Framework for Great Schools: Rigorous Instruction, Supportive Environment, Collaborative Teachers, Effective School Leadership, Strong Family-Community Ties, and Trust. The information captured in this report is designed to support a dialogue among all members of the school community about how to make the school a better place to learn.

Taking the time to reflect on our school's strengths and areas for growth is an important step in improving the teaching and learning environment in our schools. Please share, discuss, and reflect upon your school's report and use the information as you plan together for the continued success of your school.

Carmen Fariña
Chancellor

What do the colors mean?

These colors indicate how the percentage of positive survey responses at this school compares to schools of the same school type this year.

This year, constituents generally reported high levels of satisfaction across the City. Therefore, it is possible to have a high percentage of positive survey responses and be below average compared to other schools. Readers should consider the survey responses in this report both on their own and in the context of responses from other schools.

Below Average | Average | Above Average

How do your school's responses in the following categories compare to Middle School?

The School for Inquiry and Social Justice

Principal: A CYPRYS
School DBN: 08X337
Enrollment: 474
School Type: MS

This report summarizes the survey responses that parents, teachers, and students at **The School for Inquiry and Social Justice** provided on the 2015-16 NYC School Survey.

Questions are categorized by the six elements of the Framework for Great Schools. Based on robust research, the six elements of the Framework for Great Schools identify the areas that must improve to increase student achievement.

- Rigorous Instruction
- Collaborative Teachers
- Supportive Environment
- Effective School Leadership
- Strong Family-Community Ties
- Trust

By focusing attention and resources on what it takes for schools to function well, the Framework identifies the underlying strengths and weaknesses of a school and shows community members concrete ways to improve student achievement.

The results from these questions will be incorporated into your school's 2015-16 School Quality Reports.[1] The reports will be aligned to the Framework for Great Schools to provide a clear picture of each school's strengths and areas of growth in each element.

Questions that are reported for informational purposes only are also included at the end of the report.

Responses to each question are reported as percentages. The most common response to each question is displayed in bold print. The positive responses are reported as a percentage to the right of each question.
