

Date_____

Child's Name_____

Dear Parent,

Your child was recently screened using the Early Screening Inventory – Revised (ESI-R). This screening provided your child's teacher with more information about your child's development in language, cognition, perception, and motor development. The screen also indicates children who may need extra support in school.

The results of the screen showed areas where further review is recommended. This will help us better support your child in school.

Your child's teacher will be contacting you to set up a meeting to discuss the screening results.

Thank you for your continued support.
