

District 75 - Citywide Programs
400 First Avenue
New York, NY 10010

March 2016

Dear Parent/Guardian:

Congratulations on having completed the first part of the Middle School Admission Process.

The attached letter indicates that your child is preparing to attend a community middle school in the fall of 2016. It is important that you understand that, in order for your child to attend a community middle school, a re-evaluation by his/her IEP team must be completed. Furthermore, the school IEP team must recommend and document on an updated IEP that the recommended program/services be provided in a community middle school. If the IEP team determines that your child's needs continue to be best met by a specialized District 75 program, we will be working closely with you to identify the best placement for your child in a District 75 middle school program. Rest assured that District 75 offers a variety of middle school programs and will meet your child's educational needs.

If you have any questions or concern, please contact the counselor at your child's school. Best of luck to your child as he/she continues in their educational career.

Sincerely,

Helen D. Kaufman
Administrative Assistance Superintendent
