

District 22

Middle School Directory

2009-2010

**Department of
Education**

Joel I. Klein
Chancellor

It is the policy of the Department of Education of the City of New York not to discriminate on the basis of race, color, religion, national origin, age, disability, marital status, sexual orientation or sex in its educational programs, activities and employment policies and to maintain an environment free of sexual harassment, as required by law. Inquiries regarding compliance with appropriate laws may be directed to Director, Office of Equal Opportunity, 65 Court Street, Room 923, Brooklyn, New York 11201, Telephone 718-935-3320.

Message to Families from Elizabeth A. Sciabarra, Chief Executive Officer, Student Enrollment

Next year, your child will be going to middle school. In the upcoming months, the information you gather will help you determine the middle schools to which you would like to apply.

This Directory includes the information you need to review to learn about the middle school options available to your child. I encourage you to:

- Think carefully about the environment in which your child will thrive.
- Read thoughtfully through the Directory pages so that you will become an informed decision maker. Discuss with your child the various opportunities each school offers.
- Attend the middle school fairs and open houses where you will have the chance to meet school representatives and ask specific questions about the instructional programs, school life, parent involvement, support services and school community.
- Seek the advice of your child's elementary school support staff and classroom teacher.
- Include all of the schools you consider a good match for your child on his or her application.

The application process is what you make of it. If you take advantage of all the ways in which you can learn about our middle schools, you will be well poised to make the best decisions.

Since each year program options change, it is important that you review the enclosed information as it represents the array of choices available for the 2010-2011 school year.

I wish you success as you undertake this journey of learning about our middle school options.

Welcome to the District 22 Middle School Admissions Process!

The purpose of this Middle School Directory is to help you learn about the middle school admissions process and to identify those middle schools that you feel would be the best fit for your child. This publication contains detailed descriptions of each middle school that you and your child can include in your list of choices as part of the process – the schools that have a page in this Directory will be listed on the application. You will also find a list of middle schools that conduct a school-based application process for which your child may be eligible – these schools will not be listed on the application. **If you are interested in learning more about these schools and the individual, school-based process by which students are accepted, please contact the school directly for more information.** There is also a list of zoned middle schools for your reference.

Information for Families

Students who wish to apply to a special program within their zoned schools or who wish to apply to programs not in their zoned schools must complete an application. It is important that families carefully review the eligibility rules and selection criteria for each school.

Admission to Middle School

- Students residing in New York City who have met promotional standards from elementary school are assured entrance into a New York City public middle school
- Each student receives priority to attend a middle school in the district in which he or she is zoned to attend middle school or in the district in which he or she attends a New York City public elementary school

Middle Schools with Gifted & Talented Programs

Please note that while many of the programs listed in the District 22 Middle School Directory are open to all District 22 students and residents, **students interested in applying to Gifted & Talented programs must meet the following criteria:**

- have 4th grade NYS English Language Arts (ELA) and NYS Mathematics Examination **combined scale scores of 1371 or more** (for instance, an ELA scale score of 700 and a Math scale score of 671 would meet the eligibility requirement by adding up to 1371)
- have submitted a **Request for Testing Form** to their elementary school (if attending a public elementary school) or the Borough Enrollment Center (if attending a non-public elementary school) no later than **October 28, 2009**
- take the Otis-Lennon School Ability Test (OLSAT) on one of three (3) following testing dates (**test location information will be distributed by elementary schools or sent directly to non-public applicants**):
 - Saturday, December 5 2009 from 9:00 AM – 1:30 PM
 - Sunday December 6, 2009 from 9:00 AM – 1:30 PM
 - Make-up date on Saturday December 12, 2009 from 9:00 AM – 1:30 PM

Selection for these programs will be based on the ranking of combined test scores on the following examinations:

- OLSAT (50%)
- 4th Grade New York State English Language Arts (ELA) Examination (25%)
- 4th Grade New York State Mathematics Examination (25%)

On their applications, students should rank all of the programs to which they are eligible and wish to attend.

Choices

We expect all of our schools to be academically challenging and nurturing learning communities that cultivate the diverse interests and skills of middle school students. Take the time to gather as much information as possible as you read through the school pages:

- Consider a school's theme, emphasis, special programs, partnerships, sports, enrichment opportunities and services
- Consider a school's location:
 - Investigate travel options and make sure you feel comfortable with the commute your child will be taking each day
 - Review the train and bus routes available to your child
 - Remember that the Department of Education offers transportation to students based on specific criteria that are described at <http://schools.nyc.gov/offices/transportation> or by calling the Office of Pupil Transportation (OPT) at 718-392-8855.

Transportation Criteria:

- Students in sixth grade are provided with free transportation if they live 1 mile or more from school; if they live closer than that but more than ½ mile from school, a half-fare MTA bus pass is provided.
 - Free transportation is provided as either a yellow bus or a MetroCard.
 - Students receive yellow busing if (i) their school has bus service, (ii) they live in the same school district as their school, and (iii) a bus can pick them up, along with 10 other students, on a route of no more than 5 miles.
- Students in seventh grade and above are provided MetroCards if they live 1-½ miles or more from school; if they live closer than that but more than ½ mile from school, a half-fare MTA bus pass is provided.
- Admission to a gifted and talented program or school does not guarantee a student yellow bus transportation. Eligibility for yellow bus transportation for students attending gifted and talented schools and programs is based on the same criteria that apply to public school general education students. The only exception is for students attending one of the three citywide gifted and talented schools (PS 334—The Anderson School, NEST + m and TAG School for Young Scholars). Students attending one of these three schools may receive busing from outside their school's district, but they must live in Manhattan and all other transportation eligibility rules still apply.

Ask yourself questions about your child and assess how good a fit each school would be for him/her:

- What are your child's interests and strengths?
- Does he/she work best in a group or individually?
- What is your child's learning style?
- Does he/she thrive in a more traditional environment or an open one?

Next Steps for Students:

Familiarize Yourself with the Middle School Directory

- Create a list of factors that are important to you in choosing a school: your interest(s) and the school's special programs, size, location and the amount of time it will take you to travel there and back each day.
- Look through this Directory with your family. Become familiar with the different middle schools from which you can choose and make a list of those that you think meet your personal interests. For example, if you are interested in taking Latin and playing Basketball, look for those two things on the Directory page. Also be sure that you meet the Eligibility requirements for the school or program. The next page, "Understanding the Middle School Directory Page," will describe the features of the Directory page in more detail.
- Write down any questions you may want to discuss with the support staff at your school or your teacher, as you review the Directory.

Additional Research

As you review the middle schools in this Directory and you want to learn more about the schools that interest you, head to the Internet to begin your search. You can find additional information about any of the New York City Public Schools at <http://schools.nyc.gov>. Enter a school's name or number into the "Find a School" search box. Once on the school's homepage, click the link called "Statistics" to access specific information about the school, including a school's Progress Report and Annual School Report Card. Remember that if you do not have Internet access at home, you do have other resources – speak to the staff at your school or visit the library for Internet access.

Families and Students:

Make Your Choices and Complete the District 22 Middle School Application

- Attend the District 22 Middle School Fair. Information about the Middle School Fair will be available from your Elementary School.
 - Information about District Middle School Fairs can also be found at <http://schools.nyc.gov/ChoicesEnrollment>. The Fair is an excellent opportunity to become familiar with the schools from which you will be able to choose.
- Attend Open House events and take tours at the middle schools that interest you most. Prepare questions for school representatives and determine the amount of time it takes to travel to and from each of the schools you wish to attend.
- Choose the schools to which you want to apply, after consultation with school support staff. Enter them on your 2009-2010 Middle School Application (see the end of this Directory for a sample application that you can use as a guide).
- Rank all possible schools for which your child is eligible and interested in applying. Any student who does not receive an offer to attend one of the schools ranked on his or her middle school application will receive a placement in either: (1) the district where the student attends public elementary school; or (2) the district to which the student is zoned to attend middle school.

Understanding the Middle School Directory Page

Inside this Directory is information about each of the middle schools to which you can apply in the district middle school choice process. The following pages describe the key items that could be listed on each school's page:

Eligibility

In this section, there may be one or more restrictions and/or priorities listed:

- Restrictions and/or priorities based on the district in which a student attends public elementary school and/or the district to which a student is zoned for middle school.
- Priority to continuing 5th grade students – many schools are K-8 and they are considered schools that have continuing 5th graders. A 5th grade student who wishes to continue to middle school grades in his or her current school, **must** list that school as one of his or her choices. Continuing students have priority to continue to 6th grade. If you do not list your current continuing school as your first choice, be sure that you would prefer to attend the school you list first more than your current school.

Site Accessibility (for Students with Limited Mobility)

It is the policy of the New York City Department of Education to make its middle school programs accessible to students with disabilities. All students with disabilities, including students with limited mobility, visual or hearing impairments, should apply to the programs of their choice for which they are eligible, whether or not these programs are currently located in an accessible site. In order to provide information about the accessibility of each school, there is a "Site Accessibility" section on each middle school's Directory page. There are three designations provided within the Directory:

- 1) **Functionally Accessible** means that a student who uses a wheelchair can, without difficulty, enter the building and access relevant programs and services, including bathrooms, class-related laboratories, library, lunchroom, auditorium, gymnasium, etc. It is expected that limited mobility students who attend these schools can receive their full range of programs and services.
- 2) **Partially Accessible** means that the school is functionally accessible both on the first floor and beyond the first floor but not for all relevant spaces and services in the school.
- 3) **Not Accessible** means that the school does not fall into either of the above-noted accessibility descriptions. If an otherwise qualified student with disabilities seeks to participate in a program for which he/she is eligible that is not currently located in an accessible site, the Department of Education will take reasonable steps to make the program accessible. This may mean making the building accessible, relocating or replicating the program, redesigning equipment, assigning staff or providing an alternative to the program or similar services.

The steps taken for any disabled student shall be designed to provide the student with an equal opportunity to obtain the same results, gain the same benefit or reach the same level of achievement as that provided to other students. Parents have the right to appeal any final school placement decision. Parents should work with their elementary school guidance staff or parent coordinator to submit an appeal. For additional information about accessible schools in the New York City public school system, please refer to the [List of Accessible Schools](http://schools.nyc.gov/Academics/SpecialEducation/ParentResources), found at <http://schools.nyc.gov/Academics/SpecialEducation/ParentResources>.

Federal law requires that all programs, when reviewed in their entirety, are accessible. The word "program" in this policy statement means a school, program, activity or service. This policy statement is a general summary of applicable law and does not create any additional legal rights or obligation. For specific detail, see Title II of the Americans with Disabilities Act and Section 504 of the Rehabilitation Act of 1973.

Special Education Services

This section lists the type of special education services the school provided in the 2009-2010 school year. Please note that the list of services provided in the 2010-2011 school year may or may not be the same – the services provided will depend on the needs of the entering class. For additional information, please see the "Students with Special Needs" section that follows.

Understanding the Middle School Directory Page (continued)

ELL Programs/Services

This section lists available programs for English Language Learners (ELL), including English as a Second Language, Bilingual Programs and/or Dual Language Programs. For additional information, please see the "Students with Special Needs" section that follows.

Total Students (Grades 6-8 only)

This section shows the total number of students who are enrolled grades 6-8 in a school as of 10/31/2008. Please note that for some schools students are also served in lower or higher grades in addition to the middle school grades, so the total number of student in the school may be larger.

Grades Served (2010-2011)

This section lists which grades a school will be serving during the 2010-2011 school year.

Grade levels that share our building

This section indicates if there are other grade levels located in the same building as the school you are reviewing.

About Our School

A brief description, submitted by a school, that explains its mission, approach to learning and theme.

Special Programs

Here schools may describe any special programs, Regents/enrichment classes and/or languages that they offer.

Partnerships

This is a listing of corporations, institutions, colleges, universities and organizations working collaboratively with the school.

Extracurricular Activities

These are activities available for student participation, usually before or after school, which can include leadership development, hobby clubs, publications, ethnic/cultural activities, annual theatrical productions, sports, etc. Note that some schools may not list all opportunities. If you are interested in a specific activity but do not see it on the list, contact the school for additional information.

Open House Information

You will find the dates, times and/or contact information for visiting the school. Some schools give priority for admission to students who attend some kind of information session, and this will be reflected in the "Selection Criteria" at the bottom of the page if it is applicable.

Important Information

This is where the school will list specific requirements you will need to consider. Some examples include if the school observes a uniform dress code, has an Extended Day Program or requires Community Service.

Audition Dates and Times

If a school or program has an audition component, this information will be listed on the page.

Program Name

Often, a school has one program to which students may apply. However, it is not unusual for schools to have more than one program to which eligible students may apply. Program names can be a number (for example, "I.S. 250") or a school name (for example, "Bell Academy").

Selection Criteria

This section includes the information, instructions, and requirements that students must know and follow in order to apply to a specific school or program. Make sure to review the selection criteria carefully, since it includes information about every program's selection methods (such as a review of grades or interview) and, when applicable, audition requirements.

Students with Special Needs

Special Education Services

A key goal of the New York City Department of Education is the achievement of high levels of performance for all students, including those with disabilities. Middle schools offer an array of special education services to support students with disabilities so that they may be educated alongside their non-disabled peers to the maximum extent appropriate. These supports provide access to the general education curriculum in order to more closely address students' needs in a middle school environment. These Special Education Services include:

- General education classes with special education services including:
 - Related Services
 - Special Education Teacher Support Services (SETSS): for a minimum of three hours a week up to a maximum of 50% of the school day
- Collaborative Team Teaching (CTT): part-time or full-time
- Special Class services: part-time or full-time

Based on individual needs, students frequently require different levels of assistance. Students with disabilities may receive a combination of the above services to support their progress in middle school. For a further description of these and additional services please refer to the document [The Continuum of Services for Students with Disabilities](http://schools.nyc.gov/Academics/SpecialEducation/ParentResources) at <http://schools.nyc.gov/Academics/SpecialEducation/ParentResources>.

This Directory lists the Special Education Services that are available in each school for the 2009-2010 school year. Services are tailored to meet the individual needs of the students with disabilities who are currently enrolled as well as for incoming students, and as such, may vary from year to year. Students with disabilities are eligible to apply to all schools listed in the Directory regardless of whether or not the services listed on your child's Individualized Education Program (IEP) are included on the school's page, but students will be placed in schools that have the services recommended on their most recent IEP.

Many students will participate in IEP meetings after the middle school placements are completed. If the student's recommendation changes to a different program setting, he/she may need to be placed in another school that has the appropriate services. In such cases, District Placement Officers will work with families to determine the new placement.

Special Education Teacher Support Services (Direct and Indirect)

Special Education Teacher Support Services (SETSS) is specially-designed and/or supplemental instruction provided by a special education teacher to support the participation of the student with a disability in the general education classroom. The special education teacher may provide direct specially-designed and/or supplemental instruction to the student or may work indirectly with the student's general education teacher to adjust the learning environment and/or modify and adapt instructional technologies and methods to meet the student's individual needs.

Collaborative Team Teaching Services

In Collaborative Team Teaching (CTT), students with disabilities and non-disabled students are educated together with two teachers: a general education teacher and a special education teacher. Together, the teachers work to adapt and modify instruction for the students and ensure that the entire class has access to the general education curriculum and that each student's special education needs are met. CTT may be provided full-time or part-time or on an individual subject basis.

Special Class Services

Special Class Services are services provided for children with disabilities in a self-contained classroom. They serve children with disabilities whose needs cannot be met within the general education classroom, even with the use of supplementary aids and services. Self-contained classes may be composed of students with the same disability or with different disabilities, as long as they have similar levels of academic and learning characteristics, social and physical development and management needs. Special Class services may be provided full-time or part-time or on an individual subject basis.

Students with Special Needs (continued)

English Language Learners

The Department of Education provides a range of programs and supports to ensure that English Language Learners (ELLs) receive the language-based services necessary to excel in middle school. Each school's Directory page lists the ELL services available. Program models are as follows:

Transitional Bilingual Education

Transitional Bilingual Education (TBE) programs provide language arts and subject matter instruction in the student's native language and English as well as intensive instruction in English as a Second Language (ESL). As the student develops English proficiency, instruction in English increases and native language instruction decreases.

Dual Language

Dual Language programs educate ELL students in need of English language instruction alongside English-speaking students who are interested in learning a second language. Programs continue to develop ELLs' native language and English language skills throughout their schooling while enabling English-speaking students to become bilingual and biliterate as well. Both groups provide good linguistic role models for each other, and through their interactions, support language development in both languages. Students receive half of their instruction in English and half in the target language.

English as a Second Language

Freestanding English as a Second Language (ESL) programs provide all classroom instruction in language arts and subject matters in English through the use of specific instructional strategies. Native language support is available to help students accelerate their understanding in subject areas. Native language assistance is supported by such activities as encouraging students to discuss subject matter with peers in the native language, allowing students to use the native language to write explanations of what they understand, and making native language textbooks, libraries, dictionaries, reference materials and technology resources available for students to use in the classroom.

Children First reforms have focused on strengthening all three program models so that they are academically challenging and delivered uniformly across our middle schools. Beyond ELL programs, however, many middle schools offer tailored services for specific types of ELLs, such as newcomers and Students with Interrupted Formal Education (SIFE). SIFE are defined by New York State as having entered a US school after second grade and whose academic performance is at least two years below grade level in reading and math. For additional information about SIFE eligibility and programs, please contact the ELL office at 212-374-6072.

For further information about all ELL programs and services available in New York City public middle schools, please visit the website of the Office of English Language Learners at <http://schools.nyc.gov/Academics/ELL>.

New York City Accountability: How do we ensure student success?

Our schools, educators and families are all responsible for ensuring student success. Three reports provide information from different sources to inform parents and students as they consider their school options.

The three New York City accountability reports are:

| | |
|---|---|
| <p>Learning Environment Survey</p> | <ul style="list-style-type: none"> ▪ Every year, all parents, teachers and 6th – 12th grade students are surveyed about the learning environment in their school, and the results are provided to the school and the public. ▪ Surveys focus on four key aspects of a school's learning environment: <ol style="list-style-type: none"> 1. Safety and respect 2. Academic expectations 3. Communication 4. Parent, teacher and student engagement |
| <p>Quality Review</p> | <ul style="list-style-type: none"> ▪ During the school year, each school receives an on-site review by experienced educators and a detailed report on how well the school is organized to support student achievement. ▪ The Quality Review Report focuses on how well the school: <ul style="list-style-type: none"> - Assesses child performance - Improves academic achievements - Meets academic goals - Plans staff development and student support services - Monitors student progress |
| <p>Progress Report</p> | <ul style="list-style-type: none"> ▪ Every fall, each school receives a report and a letter grade (A, B, C, D or F) measuring its success in accelerating student learning during the prior school year. ▪ The Progress Report measures each school's contribution to student academic progress, no matter where each child begins his or her journey to proficiency. |

Where can I find school accountability reports?

Here's a helpful step-by-step process on how to access your school's accountability reports on the NYCDOE website.

1. Visit <http://schools.nyc.gov>.
2. Enter school's name or number into the "Find a School" search box.
3. Your search results will appear on the left. Click on the school's name.
4. A new window will open and the school's webpage will appear.
5. Click on the "Statistics" link on the left-hand side of the page under, "About Us."
6. Now you should be able to access the school's accountability reports along with other valuable information.
7. If you have any questions, you may visit <http://schools.nyc.gov/accountability> or email the Office of Accountability at accountability@schools.nyc.gov. You may also talk to your school's parent coordinator.

New York State Accountability: What is a School In Need of Improvement (SINI)?

A School In Need of Improvement (SINI) is one that did not meet the Adequate Yearly Progress (AYP) goals determined by the state to measure achievement levels in:

- English Language Arts
- Mathematics
- Science
- High School Graduation Rates

What is Adequate Yearly Progress (AYP)?

Adequate Yearly Progress is the minimum level of academic performance schools must achieve every year. While some SINI schools have produced good results for many students, they have not sufficiently improved achievement for **all** students. In other cases, schools are included on the SINI list when an insufficient number of students participated in state-required tests.

What actions are SINI schools taking to improve?

All SINI schools are required to implement a variety of interventions to help improve their instructional programs and management. Through No Child Left Behind, students who have attended a SINI school for at least a year, and are not in the final grade of the school, have the opportunity to apply for a transfer to a non-SINI school.

| Year | Adequate Yearly Progress (AYP) | School Role | Parent Role |
|--------|---|---|---|
| Year 1 | Fails to make AYP | Schools work to improve achievement | Parents can work with school toward improvement goals |
| Year 2 | Fails to make AYP | School writes an improvement plan | Parents notified about school status and public school choice option |
| Year 3 | Fails to make AYP (becomes a SINI school) | School works toward meeting improvement goals | Public School Choice transfer options continue; students can receive tutoring through Supplemental Educational Services (SES). For more information about SES, please email NCLBSESupport@schools.nyc.gov |
| Year 4 | Fails to make AYP | | |
| Year 5 | Fails to make AYP; is in need of corrective action | | |
| Year 6 | Fails to make AYP; is in need of corrective action | | |
| Year 7 | Fails to make AYP; school is under alternative governance | | |

How do I know which schools are SINI?

You can find the up-to-date SINI school list at <http://schools.nyc.gov/ChoicesEnrollment>. If you have any questions or concerns as you select a middle school, please speak with your school's guidance counselor. If you are matched to a SINI school, you will be expected to attend in September 2010.

Map of District 22 Middle Schools

Shell Bank (J.H.S. 14)

Address: 2424 Batchelder Street, Brooklyn, NY 11235

- 6

Accountability:

- Progress Report Grade:

2008 – 2009: A

2007 – 2008: B

- Quality Review:

2007 – 2008: Proficient

ABOUT OUR SCHOOL

School Theme: Science & Math

What students like best about our school:

Students enjoy getting to know their teachers in a small academy setting. The academy structure allows Academy Teachers, Assistant Principals, Guidance Counselors and Deans to get to know students on an individual basis, adding to student success.

What parents like best about our school:

As students move from one grade to the next, they remain in the academy with the same administrative team, providing our students with a strong support system and creating a family atmosphere that parents appreciate.

Interesting facts:

- Shell Bank is home to the largest hydroponics system in the NY School System. Our students learn about the balance of nature through hands-on research and inquiry. At Shell Bank, we have brought the outdoor environment into our classrooms to give students a clear understanding of the importance of preserving our natural resources.

SPECIAL PROGRAMS & COURSES

- Regents Classes:** Earth Science, Integrated Algebra, Living Environment
- Language Classes:** Spanish

PARTNERSHIPS

- Cultural Institutions:** BRIC Rotunda Gallery, Brooklyn Ballet, New York Aquarium, American Museum of Natural History
- Higher Education Institutions:** University of California - Marine Activities, Resources & Education (MARE) Program; Brooklyn Law School, Brooklyn College's Aquatic Research and Environmental Assessment Center (AREAC), Kingsborough Community College (KCC), Columbia University, Rutgers University
- Program Partners:** New York State Supreme Court; Legal Outreach, Inc.; YMCA, Sports & Arts in Schools, Police Athletic League (PAL), Oceans of Know Program, National Park Service, Gateway
- Resource Partners:** IBM

EXTRACURRICULAR ACTIVITIES

- Clubs & Activities:** Dance, Drama, Chorus
- Boys Sports:** Basketball, Football, Softball, Wrestling
- Girls Sports:** Basketball, Gymnastics, Softball
- Co-ed Sports:** Basketball, Football, Wrestling

Important Information!

- Extended Day Program offered
- Summer Session offered
- Uniform Dress Code observed
- Weekend Program offered

Open House Information

- Please call the school for Open House dates and times

ABOUT OUR SCHOOL

What students like best about our school:

Our students enjoy the personalized attention that they receive from our dedicated grade teams. Every student has access to a full time academic counselor, after-school academics & clubs, Saturday school and a vibrant and diverse arts program. Students attend educational trips throughout the year including a college visitation program.

What parents like best about our school:

In collaboration with parents and the community we support the intellectual, emotional and social growth of students, preparing them for roles as future leaders and outstanding citizens.

ABOUT OUR SCHOOL

School Theme: Math & Science

What students like best about our school:

Students at P.S. / I.S. 206 are held to high expectations and are constantly being challenged to accomplish new levels of achievement. Our environment allows students to take the educational risks needed to succeed.

What parents like best about our school:

Parents know that our school has a stimulating environment with the highest quality instruction. Our small school allows teachers to target specific needs of students.

Interesting facts:

- We have a focus on Project-based Learning.
- Our technology resources include SMART Boards, document cameras, Flip Video cameras and the school website.

SPECIAL PROGRAMS & COURSES

- **Special Programs and Initiatives:** Chess Team, Renzulli Learning, Computer Technology Club, Basketball, Dance, Chorus; Cooperative, Healthy, Active, Motivated Positive Students (CHAMPS) Program, Art Portfolio Programs, Photo Editing, Electronic Keyboard Program, Math Enrichment

ABOUT OUR SCHOOL

School Theme: Math & Science

What students like best about our school:

Andries Hudde is a comprehensive school with a large diverse population. Our school provides students with an exceptional opportunity to engage in a rich science, math and technology program, as well as to develop their art skills. Our school is structured into various teams, allowing students, teachers and parents to experience a more individualized and academic social setting.

What parents like best about our school:

Parents value the educational structure that provides each student the opportunity to reach their maximum potential.

Interesting facts:

- Hudde graduates have been accepted to: Stuyvesant High School, Brooklyn Technical High School, Bronx High School of Science, Fiorello H. LaGuardia High School of Music & Art and Performing Arts, Bard High School Early College, Leon M. Goldstein High School for the Sciences and Midwood High School
- The school holds various events, including Econ Bowl, Movie Night and the Spring Arts Festival.

ABOUT OUR SCHOOL

School Theme: Arts

What students like best about our school:

Our students have unique opportunities to explore their talents through our Performing Arts Program which include Instrumental Music (Concert, Jazz, Marching Band), Choral Music, Drama and Visual Arts.

What parents like best about our school:

Our parents have found that the Arts provide a foundation building their children's self esteem, character, attendance and academic achievement.

Interesting facts:

- Our Band and Chorus groups have earned top honors across New York State, including Gold with Distinction Honors & First Place in various competitions.
- Students designed our auditorium and hallways.
- Drama students put on plays and an annual musical.

ABOUT OUR SCHOOL

School Theme: Business

What students like best about our school:

Students value our entrepreneurial partnerships that give them real-world business experiences with guest speakers, presentations and Career Exploration Outings (CEOs). They also like our new computer lab.

What parents like best about our school

Parents value our weekly update on their student's attendance, behavior and coursework in all subjects. These updates identify areas of concern and regularly celebrate students' accomplishments.

ABOUT OUR SCHOOL

School Theme: Science & Math

What students like best about our school:
 I.S. 381 offers an intimate school setting for students. Our staff works to develop a challenging individual program in order to encourage each student to reach academic excellence.

What parents like best about our school:
 The programs at I.S. 381 are designed to meet the learning and social developmental needs of our students.

Interesting facts:

- I.S. 381 is comprised of three smaller Magnet Program Academies: The New York Experience (Students actively engage in school and community-based projects related to local history), The Finance and Commerce Academy (Students focus on business and industry) and Project Greenschool (Students focus on living a "green" lifestyle). These smaller learning communities offer students opportunities to work cooperatively on in depth projects.

ABOUT OUR SCHOOL

School Theme: Science & Math

What students like best about our school:

Students have the opportunity to actively participate in a range of internships. Our partners connect our students with role models and mentors that inspire them to challenge their self-perceptions and the stereotypes that currently exist for women.

What parents like best about our school:

The Urban Assembly (UA) Institute empowers young women through a rich math and science education.

ABOUT OUR SCHOOL

School Theme: Law & Government

What students like best about our school:

We are a growing all girls secondary school. Our students receive real-world experiences that enhance classroom learning. We take many trips; learning happens inside and outside the classroom. We also offer many after school activities.

What parents like best about our school:

Parents appreciate our mission's focus on college success. Additionally, our teachers are accessible and we have small class sizes and give individual attention to our students. We excite our students about learning, reading and exploring the world.

SPECIAL PROGRAMS & COURSES

- **Special Programs and Initiatives:** Criminal Justice Speaker Series, Baker's Brunches, Advisory – Girls' Project, Big Sister Mentoring, Service League/Community Service, Science Fair, Greek Olympics, Student Council & Justice Committee, Peer Tutoring (Math), Writing Workshop, Visual Arts Program
- **Regents Classes:** Earth Science, Integrated Algebra
- **Language Classes:** Spanish

PARTNERSHIPS

- **Higher Education Institutions:** Pace University, Duke University
- **Program Partners:** The Urban Assembly, Baker & Hostetler LLP, Federal Bureau of Investigation (FBI), New York Police Department (NYPD), Center for Courts in the Community, Center for Urban Pedagogy

SAMPLE 2009-2010 Application for Admission to Middle School

New York City public elementary school students who attend or reside in a district with a middle school choice application will be receiving a personalized application from their current school in November. This application will contain identifying information as well as the middle school choices for which each student is eligible.

Students not currently enrolled in a New York City Public School will need to request an application for the district in which they reside from their local Borough Enrollment Office. The information will not be personalized and the schools for which the student is eligible will not be listed.

For students currently attending a public school, the information in sections 1 and 2 will be automatically pulled from the current school's computer system.

- When you receive your application, verify that the information in sections 1 and 2 is correct.
- If any information needs to be updated, contact your elementary school. Your school will make the corrections in their computer system.

Section 1 contains all of the information about you, the applicant: name, address, date of birth, contact information and other identifying information.

Section 2 contains academic information like your most recent standardized test scores, special needs information, and last year's attendance.

Sections 3 & 4 are for a teacher or other school administrator to complete *after* submitting your application. *Students and parents should not complete these two sections.*

Section 5 will list all of the middle schools for which a student is eligible. This is where you indicate which schools/programs you are interested in attending. After you review this directory and attend fairs and other school events, you will rank the schools for which you are eligible in priority order on your application.

- Write a "1" next to the school you want to attend most; a "2" next to your second choice and so on until you have ranked all of the schools for which you are eligible and interested in attending.
- You can rank all of the schools listed on your application.

| Priority Order # | District | School DBN | School Name/Program Name |
|------------------|----------|------------|--|
| 4 | 1 | 01M345 | M345 The Collaborative Academy of Science, Technology and Language Arts Education |
| 6 | 1 | 01M378 | M378 School for Global Leaders |
| 7 | 1 | | School Number t Side Community School |
| 2 | 2 | | Borough Code District Code rch Middle School (J.H.S. 104)/M104 Special Progress |
| 3 | 2 | 02M111 | Simon Baruch Middle School (J.H.S. 104)/M104 Special Progress |
| 1 | 21 | 21K239 | Mark Twain (I.S. 239) Magnet Program |
