

Reminder

Dear Parent,

As you may be aware Lutheran School-Based Health Center is currently providing dental services at your school. Our program has been operating for 25 years and currently provides dental services in 20 schools throughout New York City. Your new School-Based Dental Clinic (SBDC) will provide preventive and restorative services including; dental exams, dental hygiene treatments, fluoride treatments, sealants, and fillings.

The SBDC can serve as your child's Primary Dental Provider (PDP) or complement services provided by an outside dentist. They provide scheduled and walk-in services while school is in session as well as telephone coverage to assist with problems that arise when the SBDC is closed.

Participation in the SBDC is covered in the SBHC medical consent form that many of you have completed in previous years. If you have not had the opportunity to complete this form to date we urge you to do so and take advantage of this opportunity to keep your child strong and healthy. If you do not want your child to be seen please notify Lutheran in writing; this notice can be left at the main office.

If you have any questions please feel free to call the dental hotline at (718) 630-7493. You may also stop by the dental clinic in our school for any additional information.

Thank you

Margaret Mason, D.M.D.
