About the Keynote

Mike Schmoker has worked on school and district improvement, assessment, curriculum and staff development as a central administrator in two school districts. His practical ideas and key strategies have provided school communities with the tools to become “assessment literate,” keeping them on the path of continuous school improvement. His conceptual framework emphasizes teamwork, goals, performance data, accelerating results, drawing on the knowledge base -- as well as the need to act through broad-based leadership.

All attendees will receive a complementary copy of Dr. Schmoker’s latest book, *Results Now: How We Can Achieve Unprecedented Improvements in Teaching and Learning*.
