The Proposed Phase-out of I.S. 231 Magnetech 2000 (29Q231)

I. Description of the subject and purpose of the proposed item under consideration.

I.S. 231 Magnetech 2000 (29Q231, “I.S. 231”) is an existing zoned middle school located at 145-00 Springfield Boulevard, Springfield Gardens, NY 11413, in Community School District 29, in Building Q231 (“Q231”). It currently serves students in grades six through eight. An Alternative Learning Center (Q987, “ALC”) is also located at Q231. On December 17, 2010, the New York City Department of Education (“DOE”) published an Educational Impact Statement (“EIS”) proposing to phase out and eventually close I.S. 231 based on its poor performance and the DOE’s assessment that the school lacks capacity to turn around quickly to better support student needs. This amended EIS corrects typographical and formatting errors, updates certain past strategic improvement efforts at the school, clarifies the methodology for calculating utilization rates, updates the projected enrollments of P.S. 355 and P.S. 356, and updates plans for the siting of the ALC currently located in the Q231 building.

If this phase-out proposal is approved, I.S. 231 would no longer admit sixth-grade students after the conclusion of the 2010-2011 school year. Current students in grades six and seven will continue to be served by I.S. 231 and be supported as they progress toward completion of middle school. Current students in grade eight will be supported in using the High School Admissions Process to select a high school as anticipated. The school will serve one grade less each subsequent year until it completes phasing out in June 2013. In 2011-2012 students in grade six would be served in one of the new zoned middle schools proposed to be opened in Q231, as described in more detail below and proposed in a separate amended EIS posted on January 25, 2011. Current fifth graders zoned to I.S. 231 would be accepted to sixth grade based on a campus choice model: all students currently zoned to I.S. 231 would be zoned to the Q231 campus and would be guaranteed a seat in one of the two new schools proposed. These students would use a middle school choice model to apply to the proposed new schools.

In 2009-2010, Q231 had a target capacity to serve 1,226 students. I.S. 231 had a target capacity to serve 1,134 students and enrolled 931 students, yielding a target organizational utilization of 82%, which does not include the ALC. This means that the building was slightly “underutilized” and had extra space to accommodate additional students.

As noted above, in a separate EIS, the DOE has also proposed the siting of two new unscreened, zoned middle schools in Q231, I.S. 355 (29Q355, “I.S. 355”) and I.S. 356 (29Q356, “I.S. 356”),

which will both serve grades six through eight when fully phased in.
