The Proposed Closure of W. H. Maxwell Career and Technical Education High School (19K660) and the Opening of New School (19K482) in Building K660 Beginning in 2012-2013

I. Description of the subject and purpose of the proposed item under consideration.

The New York City Department of Education (“DOE”) is proposing to close W. H. Maxwell Career and Technical Education High School (19K660, “W. H. Maxwell”), an existing district high school in building K660 (“K660”), located at 145 Pennsylvania Avenue, Brooklyn, NY 11207, within the geographical confines of Community School District 19. It currently serves students in grades nine through twelve. The DOE is proposing to immediately replace W. H. Maxwell with New School (19K482, “New School”), a new district high school which will serve students in grades nine through twelve in building K660.

If this proposal is approved, W. H. Maxwell will close at the conclusion of the 2011-2012 school year. All current students who have not graduated before the start of the 2012-2013 school year will be guaranteed a seat and automatically enrolled in New School.

In addition, K660 houses a Living for the Young Family Through Education (“LYFE”) program. W. H. Maxwell currently offers seven Career and Technical Education (“CTE”) pathways. It admits students through the Citywide High School Admissions Process through an educational option method. Additional information about CTE programming and the High School Admissions Process is contained in Sections III.A of this proposal.

The DOE strives to ensure that all students in New York City have access to a high-quality school at every stage of their education. By closing W. H. Maxwell and replacing it with New School, the DOE is seeking to expeditiously improve educational quality in building K660. If this proposal is approved, New School will develop rigorous, school-specific competencies to measure and screen prospective staff – including W. H. Maxwell staff who apply to work at New School. Based on these criteria, and in accordance with the staffing requirements in Article 18-D of the DOE’s existing contract with the United Federation of Teachers (“UFT”), New School will put in place a process aimed at hiring the best possible staff, thus immediately improving teacher quality and, by extension, improving the quality of learning. New School plans to develop new programs and school supports that are intended to improve student outcomes. By improving the quality of teaching and learning in the school, DOE also will increase New School’s chance of receiving up to \$2,000,000 in supplemental federal funding per year under the federal School Improvement Grant (“SIG”) program. New School will build on the strongest

elements of W. H. Maxwell and incorporate new elements, including new talent, designed to better meet student needs. Thus, the immediate closure and replacement of W. H. Maxwell with New School should give students access to a higher-quality educational option while they continue to attend school in the same building.
