High School Admissions Parent Workshop with Guest Speakers from the Office of Student Enrollment

September 2016

Dear Parents/Guardians:

Communication between the home and school is an essential ingredient of quality education. During the eighth grade the importance becomes more pressing because application deadlines and processing for graduation come in rapid succession.

At this time, I would like to invite eighth grade parents to our "High School Admissions Workshop". The High School Application process will be explained.

It is important that you attend this meeting so that you and your child will be able to make an informed decision of the high schools best suited for a future career.
