

Teach YOUR WAY at the RIGHT reading LEVELS

- Turn students loose in an online **leveled reader bookroom** to discover their favorite books.
- Steer them toward specific reading levels and titles (and quizzes) using the online **assignment and progress management** system.
- **Project the books** on an interactive whiteboard for whole-class and group instruction.

I've been teaching for 15 years and have never seen my students so motivated. I set up a mini computer lab in my classroom, and we work on it two days a week. Thanks for a great program!
