The Proposed Expansion of the Co-Location of Girls Preparatory Charter School of the Bronx (84X487) with M.S. 302 Luisa Dessus Cruz (08X302) in Building X052, Beginning in 2013-2014

I. Description of the subject and purpose of the proposed item under consideration.

On September 20th, The New York City Department of Education (“DOE”) is proposed to expand the grades served in building X052 (“X052”) by Girls Preparatory Charter School of the Bronx (84X487, “Girls Prep Bronx”), from kindergarten through fourth grades to kindergarten through fifth grades. That proposal was scheduled to be considered by the Panel for Educational Policy (“PEP”) on November 8, 2012.

The DOE is now reissuing the proposal in the wake of disruptions caused by Hurricane Sandy; this re-issued proposal will be subject to a vote at the PEP’s meeting on December 20, 2012. Girls Prep Bronx is an existing charter elementary school serving kindergarten through fourth grades in the X052 building, located at 681 Kelly Street, Bronx, NY 10455 in Community School District 8. Girls Prep Bronx is co-located with M.S. 302 Luisa Dessus Cruz (08X302, “M.S. 302”), a zoned school serving students in sixth through eighth grades. A “co-location” means that two or more school organizations are located in the same building and may share common spaces like auditoriums, gymnasiums, and cafeterias.

Girls Prep Bronx currently admits students through a charter lottery application. M.S. 302 is zoned. (Admissions procedures are discussed in more detail in Section III of the Educational Impact Statement.)

Girls Prep Bronx has been co-located with M.S. 302 since September 2009 when Girls Prep Bronx opened with kindergarten and first grade. Girls Prep Bronx has expanded one grade per year since then, and as of the 2012-2013 school year, serves students in kindergarten through fourth grades. If this proposal is approved, Girls Prep Bronx would begin serving fifth grade in X052 in 2013-2014.

According to the 2010-2011 Enrollment, Capacity, Utilization Report (the “Blue Book”), X052 has the capacity to serve 1,137 students. Currently, the building serves 944 students, yielding a building utilization rate of 83%, meaning the building is not being used as efficiently as it might be. If this proposal is approved, Girls Prep Bronx will add a fifth grade in 2013-2014 and will

enroll approximately 68-86 additional students. Including those additional Girls Prep Bronx students, in 2013-2014, X052 is projected to serve approximately 1,002-1,144 students in total from Girls Prep Bronx and M.S. 302, yielding an estimated building utilization rate of 88-101%. The building has sufficient space to provide both schools with at least their baseline room allocations, despite the possibility of a utilization rate slightly over 100%. Although a utilization rate in excess of 100% may suggest that a building will be over-utilized or over-crowded in a given year, this rate does not account for the fact that rooms may be programmed for more efficient or different uses than the standard assumptions in the utilization calculation. In addition, charter school enrollment plans are frequently based on larger class sizes than target capacity, contributing to building utilizations above 100% while not impacting the utilization of the space allocated to the traditional public school. Therefore, the X052 building has the capacity to accommodate all the existing schools at full scale.

Public Prep is a charter management organization (“CMO”) that operates two public charter schools in New York City, including Girls Prep Bronx. The State University of New York (“SUNY”) Charter Schools Institute has authorized Girls Prep Bronx to serve kindergarten through fifth grades. Given the available space in Girls Prep Bronx’s current location, building X052, the DOE is proposing to expand the co-location of Girls Prep Bronx in X052 to include fifth grade and to continue at that grade span in X052 thereafter.

II. Information regarding where the full text of the proposed item may be obtained.

The Educational Impact Statement (“EIS”) and Building Utilization Plan (“BUP”) can be found on the Department of Education’s website:
