The Proposed Expansion of the Co-location of Harlem Success Academy 5 (84M482) with P.S. 123 Mahalia Jackson (05M123) in School Building M123

I. Description of the subject and purpose of the proposed item under consideration.

Harlem Success Academy 5 Charter School (84M482, “HSA 5”) is an existing public charter school located at 301 West 140th Street, New York, NY, 10030, in Community School District 5, in Building M123. It currently serves students in Kindergarten through first grade. HSA 5 is co-located with P.S. 123 Mahalia Jackson (05M123, “P.S. 123”), a zoned school which serves students in Kindergarten through eighth grade and offers a Pre-Kindergarten program. A “co-location” means that two or more school organizations are located in the same building and may share common spaces like auditoriums, gymnasiums, and cafeterias.

On April 20, 2010, the Panel for Educational Policy (“PEP”) approved the co-location of two grade levels of HSA 5 with P.S. 123 in M123. In the Educational Impact Statement (“EIS”) describing that proposal, the Department of Education (“DOE”) stated that it would assess the available space in M123 to determine whether there is sufficient space for HSA 5 to continue to add additional grades in M123. After conducting such an assessment, the DOE has determined that there is sufficient space for HSA 5 to add an additional grade level in M123. The DOE now proposes to expand the co-location of HSA 5 so that it will serve grades K-2 in M123.

If this proposal is approved, HSA 5 would enroll approximately 60-70 additional students, and the total enrollment for the school would be 249. P.S. 123’s enrollment in grades Kindergarten through eight would be approximately 670-680 students. P.S. 123 also has a Pre-Kindergarten program which enrolls 54 students. The combined total enrollment in the building would be approximately 973-983 students. In 2009-10, M123’s target capacity was 1,044. Thus, M123 has the capacity for HSA 5 to expand and for P.S. 123 to continue to serve Kindergarten through eighth grade students and offer a Pre-Kindergarten program with total building utilization of approximately 93-94% of target capacity.

If the DOE seeks to further extend the co-location of HSA 5 with P.S. 123 in the M123 building or make it a permanent site for all or some of HSA 5’s grades, it would have to post a separate EIS detailing that proposal, seek approval from the PEP and comply with other relevant components of the Chancellor’s Regulation A-190.
