The Proposed Phase-out of I.S. 195 Roberto Clemente (05M195)

I. Description of the subject and purpose of the proposed item under consideration.

I.S. 195 Roberto Clemente (05M195, “I.S. 195”) is an existing choice middle school located at 625 West 133 Street, Manhattan, 10027, in Community School District 5, in Building M195 (“M195”). It currently serves students in sixth through eighth grade. I.S. 195 is currently co-located with KIPP Infinity Charter School (84M336, “KIPP Infinity”) in building M195. A “co-location” means that two or more school organizations are located in the same building and may share common spaces like auditoriums, gymnasiums, and cafeterias. On December 17, 2010, the New York City Department of Education (“DOE”) issued an Educational Impact Statement (“EIS”) describing a proposal to phase out and eventually close I.S. 195 based on its poor performance and the DOE’s assessment that the school lacks capacity to turn around quickly to better support student needs. This amended EIS contains more accurate and current information regarding the proposed use of building M195 if I.S. 195 is phased out, updates past strategic improvement efforts undertaken at the school, and corrects typographical and formatting issues, but does not revise or modify the proposal itself.

If this phase-out proposal were approved, I.S. 195 would no longer admit sixth-grade students after the conclusion of the 2010-2011 school year. One grade would be phased out each subsequent year. During the 2011-2012 school year, I.S. 195 would serve students in grades seven and eight. In 2012-2013, I.S. 195 would serve students in grade eight. The school would close after June 2013.

I.S. 195 currently enrolls 400 students, with 74 sixth-grade, 126 seventh-grade and 200 eighth-grade students. KIPP Infinity currently enrolls 398 students in Kindergarten and grades five through eight, in M195, and serves students in grades 9 through 12 in a separate location. KIPP Infinity will serve Kindergarten through grade eight in M195 when at full scale.

In a forthcoming EIS to be posted on January 28, 2011, the DOE intends to propose the co-location of a new school in M195 (“New School”), which would serve middle school students. In a separate forthcoming EIS, the DOE will also propose the temporary co-location of the high school grades of KIPP Infinity Charter School (84M336, “KIPP Infinity”), KIPP S.T.A.R Charter School (84M726, “KIPP S.T.A.R.”), KIPP Academy Charter School (84X704, KIPP Academy), and KIPP A.M.P. Charter School (84K357, “KIPP A.M.P.”) (hereafter referred to collectively as “KIPP High School”) from its current location on the Mott Haven Educational Campus to building M195. This temporary co-location would be for a period of two years.

In 2009-2010, M195 had a target capacity to serve 1,386 students. In that year, the high school

grades of both KIPP Infinity and KIPP S.T.A.R. (84M726, “KIPP S.T.A.R.”) were also co-located in the building and the total combined enrollment was 1,038 students, yielding a building utilization of 75% of target capacity. As of November 1, 2010, I.S. 195 and KIPP Infinity had a combined enrollment of 798 students, yielding a building utilization of 58% of target capacity. The decrease in enrollment and utilization is driven by the fact that KIPP’s high school grades moved to the Mott Haven Educational Campus (building X790) in the South Bronx. This means that the building is “underutilized” and has extra space to accommodate additional students.
