

Suggested Pre-K Staggered Schedule 2017-2018

Division of Early Childhood Education (DECE)

Smooth transitions into Pre-K for All programs lay the foundation for a successful year. As you develop plans to welcome children and families for the 2017-18 school year, the DECE strongly encourages you to use a staggered schedule to help children and families adjust. The DECE's [First Days of Pre-K](#) resource provides some key best practices for teachers and leaders to consider as they plan for the first days of pre-K.

The schedule below is designed as a sample. Pre-K programs should make changes as necessary to meet the needs of their students, families, and staff.
