Welcome to P.S 117

Welcome to a school year of Kindergarten at P.S. 117. It is a pleasure to have you and your child in our school. Your child will learn many things throughout the school year and he/she will need support from you and their teacher to get them through the year. Together we can help the children succeed and progress. During the month of September, we will be going over the rules and routines in the classroom.

In Math, we will review the colors, red, blue, green, yellow, orange, purple, brown and black. We will also identify things in our environment that are those colors. We will be reviewing the shapes circle, square, triangle and rectangle and identify things that we know that are one of those shapes.

In Social Studies, we will be celebrating Johnny Appleseed's birthday and begin discussing apples.

In Science, we will be discussing what weather is, how we can measure weather and how weather changes with the seasons. We will also discuss the change from Summer to Fall and how we wear different clothing and do different activities as the seasons change.
