Overview

Our students can earn both an academic Regents diploma as well as a state-approved technical endorsement in the Automotive trades. Our ninth grade program is a specifically designed schedule aimed at transitioning students into high school by providing additional academic support in both ELA and Math. Students immediately begin their career sequence in ninth grade with hands-on classes in their CTE program. Our College and Career Center counsels students as they develop their post-secondary plans by offering frequent college trips, mentoring, and internship opportunities, and career interest workshops.

Academic Opportunities

Program Highlights: Automotive Trades, Honors Classes, Summer Internships

Language Classes: Spanish

Online Language Classes: N/A

Advanced Placement Classes: English Language and Composition, United States History

Overview

Bronx Academy for Software Engineering (BASE) is a Career and Technical Education high school preparing students to work and play in the world of software design and programming. Classes like mobile app design use the tools of software engineering to focus on real-world problem solving. Internships with industry leaders give students experience with cutting-edge technology. Seminar class helps students make connections across their academic classes, get to know each other and develop post-graduation plans. BASE graduates are prepared to develop their skills in college, to enter the software industry as programmers or website designers, and to understand and help the communities we live in.

Academic Opportunities

Program Highlights: Internships with industry partners; advisory class; classes in software design, computer programming and app development; individual academic and career planning; project-based learning
Language Classes: Spanish Native Language Arts
Online Language Classes: As we expand, we plan to offer Arabic, Chinese, French, and Korean.
Advanced Placement Classes: As we expand, we plan to offer Computer Science A and Computer Science Principles.
Online Advanced Placement Classes: Please contact the school for more information.

Extracurricular Activities and Clubs

Robotics, girls and boys math clubs, computer-aided design, anima/manga club, 3-D printing, business start-up workshops, individual and small-group tutoring, student government, SAT prep
PSAL Sports – Boys: Please contact the school for more information.
PSAL Sports – Girls: Please contact the school for more information.
PSAL Sports – Co-ed: Please contact the school for more information.
School Sports: Please contact the school for more information.

Overview

The Bronx Design and Construction Academy (BDCA) is a CTE school that prepares students for direct entry into the design and construction field and entry to a four-year college without remediation. BDCA offers Carpentry, Plumbing, HVAC, Electric, and Architectural Drafting/Pre-engineering as CTE programs. Freshmen will take a survey course to find which strand is the best fit for them and will focus solely on that strand during for their sophomore, junior, and senior years. We provide a challenging and engaging CTE program that is rooted in the context of transportation and sustainability. All students at BDCA receive a rigorous four-year liberal arts education along with their CTE training. We provide a challenging interdisciplinary program that ties academic skills and discipline with their CTE course work. By focusing on a skill-based approach, we help students make connections between their coursework and real world problems so that our students may find unique and tenable solutions to any problem they wish to solve.

Academic Opportunities

Program Highlights: Career and College Counseling, Interdisciplinary curriculum, sustainable energy focus, real-world work experience through our multiple business partners; As we expand, we expect to offer Spanish, AP courses & select PSAL and intramural sports

Overview

Our mission is to partner with families and local organizations to serve English Language Learners who have recently immigrated to the United States from countries around the globe. Our graduates are prepared for success both in college and in careers in Media & Communications. Our school and classes are small; every student is known and supported to achieve. Staff and students work and learn collaboratively in heterogeneous groups. Students develop English language literacy and critical thinking skills by engaging in classroom projects, service learning, and internship programs. They learn to advocate for themselves and their families and to become active leaders in their communities.

Academic Opportunities

Program Highlights: Small classes that integrate academic content and English language development; CTE program sequences in Digital Media (Recording & Entertainment Technology); cooperative learning groups, interdisciplinary project-based curriculum, service learning, work-based internship opportunities, college trips, college prep counseling, career counseling

Overview

At H.E.R.O. High, students learn how to save lives and serve their communities by preparing for a career as a Registered Nurse or Community Health Worker. Students take college classes starting in 10th grade and can earn a 2-year college degree with help from a small school environment. Our academic program will prepare every student to succeed in college and career through hands-on, real-world problem solving, advance work in math and science, and challenging reading and writing tasks in every class. Start your technical training early through internships in clinical nursing and community health work. Even heroes need extra help some times, so we offer tutoring in every subject area.

Academic Opportunities

Program Highlights: Free 2-year college degree in Applied Science in Nursing or Community Health Work, Early college classes available at H.E.R.O. High or on the campus of our partner Hostos Community College, Internships in nursing and community health, Advisory, Tutoring in every subject
Language Classes: As we expand, we plan to offer Spanish Native Language Arts.

Overview

The High School of Computers and Technology is a Career and Technical Education (CTE) school. We provide an environment where students prepare for a career in the computer industry as they are building a foundation to further their education in college or a post-secondary technical school. Mutual respect, understanding, value for community and a quest for knowledge serve as guiding principles for our students and staff. All instruction is interdisciplinary and hands-on, through project-based education. Students will be able to obtain certification(s) in specific fields while earning a Regents diploma.

2011	N/A	N/A	N/A	N/A	N/A	N/A	N/A

Quality Review Score (N/A): N/A

Overview

If you think the tourism and hospitality industry is all about cleaning rooms, checking in guests, making flight reservations, and preparing meals you may be surprised to find out how many choices there really are. Each hotel, resort, or restaurant can be like its own little city, with jobs ranging from van driver to accountant, and from security officer to retail manager. Students with an interest in leadership will find a wealth of opportunities in the industry! Our graduates will be prepared for careers in management. Our classes are engaging and exciting – just like NYC and the industry – which our hands-on approach to learning is centered around.
