D75 Feeding Team Consultation Student-Specific Referral

Feeding Team Members:

Ashley O'Rourke and Jacklyn Collins, SLP, Kimberly McInnis Wray, PT, and Cara Kantrowitz, OT

This team is comprised of speech and language pathologist, occupational therapist and physical therapist. We are here to consult with school teams regarding students who are having feeding and swallowing difficulties due to motor and/or sensory impairments.

We look forward to working with you.

In order to maximize outcomes for your requested feeding consultation, please consider the following points prior to making a referral:

- ⌚ Have you discussed the feeding concern with other team members (i.e., related service providers, teachers, paraprofessionals, nurses, parents, etc.)?
- ⌚ Has the parent completed a caregiver/mealtime interview form?
- ⌚ Have you tried to design and implement a mealtime plan?
- ⌚ Have you tried different strategies?

If so, please complete the attached referral form and email it to D75feedingteam@schools.nyc.gov

Please insert “**FEEDING TEAM CONSULTATION**” in the subject heading of your email. It will then be forwarded to all feeding team members and you will be contacted directly.

D75 Feeding Team Consultation Student-Specific Referral

Name & Title of person making referral:	Name of Child:
Best Contact Number:	Age:
