

MS 890 provides a safe, comprehensive learning environment which meets the needs of every student while preparing him/her for college and career. Our faculty is committed to designing learning opportunities that develop the whole child through interdisciplinary approaches that address the Common Core Learning Standards. This enables students to develop high expectations for learning in an environment that fosters self-confidence and academic excellence. In addition to academic courses, students are able to pursue their interests in sports, music, drama, clubs, foreign language, and writing. We believe that, when the school community is involved cooperatively, positive results occur. Parents have a voice in school-based decisions via the School Leadership Team, Parent Association, fundraising, and our varied parent engagement events.
