Amended Educational Impact Statement: The Proposed Opening and Co-location of New High Schools 10X351 and 10X353 with Existing Schools DeWitt Clinton High School (10X440) and P168X@X440 (75X168) in School Building X440 Beginning in 2013-2014

I. Description of the subject and purpose of the proposed item under consideration.

On January 18, 2013, the New York City Department of Education (“DOE”) issued an Educational Impact Statement (“EIS”) describing a proposal to open and co-locate two new district high schools, 10X351 (“10X351”) and 10X353 (“10X353”), in school building X440 (“X440”). Building X440 is located at 100 West Mosholu Parkway South, Bronx, NY 10468, within the geographical confines of Community School District 10 (“District 10”). The proposed new high schools, 10X351 and 10X353, will offer rigorous academic programming that will prepare students for post-secondary education and work. If this proposal is approved, 10X351 and 10X353 will be co-located in building X440 with DeWitt Clinton High School (10X440, “Clinton”), an existing high school serving students in grades nine through twelve, and P168X@X440 (75X168, “P168X@X440”), a District 75 (“D75”) Inclusion Program. In addition, X440 houses a Living for the Young Family Through Education (“LYFE”) program, a full-time GED Plus – Learning-to-Work program (79Q950, “GED Plus – LTW”) and one community-based organization (“CBO”), Good Shepherd Services. A “co-location” means that two or more school organizations are located in the same building and may share common spaces like auditoriums, gymnasiums, and cafeterias.

In an inclusion program such as P168X@X440, students with special needs receive services in general education classrooms along with general education students. Students in P168X@X440 are enrolled in general education classes at Clinton based on their Individualized Education Programs (“IEP”) recommendations and receive Special Education Teacher Support Services (“SETSS”).

This notice is to advise you that the DOE has now issued an amended EIS, which provides updated information regarding the planned enrollment reduction at Clinton and corrects typographical errors, but does not substantially revise the proposal.

After considering feedback from Clinton’s administration, the DOE is planning to reduce enrollment at Clinton over a four-year period. By 2016-2017, Clinton will serve 2,210-2,250 students in ninth through twelfth grades, which will be 1,506-1,546 fewer students than it currently serves. The enrollment reduction at Clinton, which will occur regardless of whether this co-location proposal is approved, will create sufficient space for 10X351 and 10X353 to

open in building X440.

The proposed co-location of 10X351 and 10X353 in building X440 is part of the DOE's central goal to create new school options that will better serve future students and the community at large and replace a portion of the seats vacated by Clinton as it reduces its enrollment. 10X351 and 10X353 will be open to students through the Citywide High School Admissions Process and will both have limited unscreened admissions methods and will give admissions priority to students residing in or attending school in the Bronx.

According to the 2011-2012 Enrollment, Capacity, Utilization Report (the "Blue Book"), X440 has the capacity to serve a total of 3,428 students. In 2012-2013, the building is serving 3,849 students, yielding a building utilization rate of 112%.

If this co-location proposal is approved, 10X351 and 10X353 will gradually phase into X440 while Clinton simultaneously scales back its enrollment. Enrollment at P168X@X440 will remain stable over the course of this proposal. The new schools will serve students in ninth grade beginning in 2013-2014 and will add one grade level each year until the schools reach their full grade spans of ninth through twelfth grades in the 2016-2017 school year, serving approximately 420-460 students each. In 2016-2017, once Clinton has completed its enrollment reduction and 10X351 and 10X353 have reached full scale, there will be approximately 3,133-3,274 students served in the building, which will yield a building utilization rate of approximately 91%-96%.
