

07X584 is a new middle school located in Melrose and committed to an instructional focus of dual language (Spanish) and STEAM (Science, Technology, Engineering, Arts, and Mathematics). The goal of a dual language program is to educate students to become bilingual and bicultural. STEAM education helps create critical thinkers, increases science literacy, and enables the next generation of innovators. Family and community stakeholders will be key partners in the development of the new middle school. The academic curriculum will be supplemented with activities to further develop student skills, and community organizations will partner with the school to enrich the student experience.
