Below this is a section titled "What is ARIS Parent Link?" which explains that ARIS (Achievement Reporting and Innovation System) provides a single place for educators to find and study important information about their child. It also mentions that ARIS Parent Link makes this information available for parents to work together with their child, principal, and teacher. At the bottom, there is a "REMEMBER" section stating that confidentiality of student data is protected by federal law and that use of ARIS Parent Link is limited to the single purpose of improving the learning outcomes of students for whom the user has educational responsibility.
