

March 2014

Dear Parent/Guardian:

Congratulations on having completed the first part of the High School Admission Process.

The attached letter indicates that your child is preparing to attend a community high school in the Fall of 2014. It is important that you understand that, in order for your child to attend a community high school, a re-evaluation by his/her IEP team must be completed. Furthermore, the school IEP Team must recommend and document on an updated IEP that the recommended program/services be provided in a community high school if the IEP Team determine that your child's needs continue to be the best met by a specialized district 75 program, we will be working closely with you to identify the best placement for your child in a District 75 high school program. Rest assured that District 75 offers a variety of high school programs and will meet your child's educational needs.

If you have any questions or concerns, please contact the guidance counselor at your child's school. Best of luck to your child as he/she continues in their educational career.

Sincerely,

Helen D. Kaufman
Administrative Assistant Superintendent
