

# Achieve NYC for Mobile Devices – Instructions

Download the ACHIEVE NYC ebook file from the following [webpage](#):

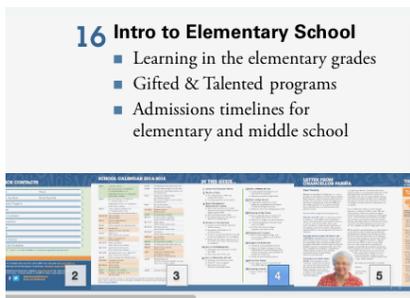

This EPUB file may be viewed on any desktop PC or Mac, or on any Apple or Android mobile device. Just click on the above link or copy it into your browser to download the file.

On Apple devices, the ebook will automatically launch iBooks when the file has finished downloading. On a Windows PC, you may open the document in any EPUB reader. *For best results we recommend **Kobo reader** for Android mobile devices. For Windows, add the **Radium extension** for the **Chrome browser**.*

Page navigation is enabled in several ways:

**1. Table of Contents:** Tap on any page to display the menu bar at the top of the screen. Then pull down a Table of Contents list and jump to any page by tapping on the page description.

**2. Thumbnail:** Tap on any page thumbnail image at the bottom of the screen and jump directly to the selected page.

**3. Word Search Index:** Tap on the magnifying glass symbol and enter any keyword or phrase in the text box. An index list will be displayed, containing every occurrence of that text. Tap any listing to jump to that page; the keyword(s) on that page will be highlighted.

**4. Web Links:** Tap on any web URL in the document to open the link in your browser.
