After all analyses were concluded, it was determined that 43 students, at two schools, had been miscoded

Students who were originally thought to be "Other Discharges" were, in fact "Dropouts".

These changes are properly displayed at the school level on this appendix table but are not reflected in the citywide and district-wide analyses.

The 43 changes had no effect on the citywide graduation rate.

Percentages may not add up to 100% due to rounding

Schools with fewer than 20 cases are included in district totals but not listed in table

After all analyses were concluded, it was determined that 43 students, at two schools, had been miscoded

Students who were originally thought to be "Other Discharges" were, in fact "Dropouts".

These changes are properly displayed at the school level on this appendix table but are not reflected in the citywide and district-wide analyses.

The 43 changes had no effect on the citywide graduation rate.

Percentages may not add up to 100% due to rounding

Schools with fewer than 20 cases are included in district totals but not listed in table
