School Mission Statement

The mission of PS 9 is to utilize a constructivist model of instruction in order to provide all our students with the ability to maximize their potential. We believe in servicing "The Whole Child" through strong partnerships among our students, parents and educators. We aim to create a community of lifelong learners who are highly motivated for success in varied capacities. It is our goal to enable the achievement of our students by emphasizing high standards, professional development and the individual needs of our students. We strive to continue to find ways to involve parents, community-based organizations and the community at large in the education of our children.

Principal's Statement

P.S. 9 is a barrier-free school committed to providing an enriched learning environment for all students, regardless of physical ability. We believe in servicing the WHOLE child as we strive to create a community that is child centered, diverse and supportive of risk taking. We believe in and provide our students with authentic and organic instruction on a daily basis. Our children are exposed to various aspects of their urban lives through our social studies driven curriculum. Our classrooms are used as labs, allowing our educators to observe the learning behaviors of our children. Collaboration is the norm within our educational community.
