School Mission Statement

The Urban Assembly School for the Urban Environment provides a challenging and supportive academic environment to prepare students in grades 6 to 12 for college and beyond. We teach students to think carefully—about themselves, their community and the world—by examining the real-world issues of the urban environment.

Principal's Statement

UE graduates will be able to take control of the urban environment, by both recognizing injustices and transgressions, as well as by understanding the methods for effecting change within their own communities. Our seven year curriculum embodies the saying "think globally, act locally." By making learning at UE relevant to our students by immersing them in their own world, we will keep our students engaged in their education and in their community. It is our expectation that our students will return from college with the necessary skills to make a difference in their community.
