School Mission Statement

Baruch College Campus High School (BCCHS) is a community of students, parents, and educators dedicated to the development of well-rounded, life-long learners. Our rigorous course of study is enhanced by real-life connections in learning, which results in socially conscious and responsible citizens. Students and teachers collaborate in an interdisciplinary program, which explores the relationship between literature, social sciences, natural sciences, mathematics and the arts. Through our community, students have the opportunity to foster the desire to see things from different perspectives. The communication of ideas is essential to the development of life-long learners. Students will be able to see things from multiple viewpoints, and be open-minded. This will be developed orally, visually, and through the written word. Our commitment to high standards empowers our students to be active participants in this transforming world.

Principal's Statement

A partnership was established between BCCHS and Baruch College in 1997 to create a high school that would provide an environment which allows adolescents to grow intellectually into highly capable young adults. The challenging interdisciplinary liberal arts curriculum focus provides students with an understanding of the many dimensions (philosophical, ethical, and aesthetic) of the human experience. It is our belief that this unique setting will result in producing a group of students who will be socially conscious and responsible leaders in our transforming world. All students are prepared to succeed in a post-secondary program.
