The members of P.S. 106Q Elementary School Family, of Administrators, Teachers, Staff Members, Parents, and Supporting Associates, aims to integrate the diversity of our city and world's community into all aspects of our students' learning experiences. We actively emphasize cultural awareness across the disciplines. Students will leave our school as socially conscious leaders, equipped with intellectual tools, academic skills and critical thinking necessary to make meaningful change in today's dynamic, interdependent world. Students at P.S. 106 Q will have the unique opportunity to learn in a small supportive academic environment, in which each student will be known as an individual learner. Students at P.S. 106Q will also have the opportunity to enter a highly engaging school culture in which all of their talents, potential, academic, and interpersonal skills are discovered, explored and realized.

Principal's Statement

P.S. 106 continues to provide our students with a stimulating educational environment. None of us is as smart as all of us. To fulfill our mission, the staff and parent work as a team to create a culture hospitable to human learning and to make every student and educator become life-long learners. We provide many supportive services for our students and we strive for excellence at all times. Our teachers are provided with intense professional development in the standard-based curriculum, technology, best practices and educational research. We encourage all parents to become active participants in the School/Home learning process.

Special Academic Programs

In addition to a comprehensive computer education program, P.S. 106 has gifted and talented classes, school enrichment activities and after school instructional programs. The school successfully met its state mandated performance targets in both ELA and math and has been designated as an effective school.

Extracurricular activities are provided in after school programs. Activities include physical education, art, music, and instructional programs. Programs funded through grants that the school received from the New York Academy of Medicine and Twenty First Century assist students to have a well rounded education
