School Mission Statement

It is our belief that all students, as a matter of moral justice, have the right to an education that will empower them to develop the skills and talents needed to be contributing members of our society. Central to this notion is the recognition that all children are intrinsically motivated and capable of learning. We will nurture each child's growth and development by creating social, physical and research based best practices for instruction. We support the development of a multicultural community in celebration of our diversity. We are committed to ongoing professional development for our staff and parents to enhance student achievement. We support collaborations where our school community can work together to ensure the growth and development of productive, literate, caring citizens and leaders.
