Grades on Charter School Progress Reports have been assigned based only on a calculation of student attendance, and student performance and student progress on New York State tests. The final grade is a combination of 15% of the school's student attendance score, 30% of the school's Performance Score, and 55% of the school's Progress Score. The grade does not include outcomes of parent, teacher, and student satisfaction surveys, and therefore it would be inaccurate to make a direct comparison to the grades assigned to non-charter DOE public schools. For information on student environment measures (e.g., parent satisfaction), and for further information on charter school performance, please visit [www.nyc.gov/charters](http://www.nyc.gov/charters) to view charter schools' annual reports, annual audits, and annual visit reports
