

**NYC School Survey  
2008-2009 Report**

Principal Gary Beidleman  
 School Type High School  
 School Number 14K322

Dear Members of the School Community,

This report tells you what parents, teachers and students said about learning conditions at your school in our annual survey. This information is designed to support a dialogue among all members of the school community on how to make the school a better place for learning.

Taking the time to reflect on how well we serve children is an important step in improving our schools. Special thanks to all parents, teachers, and students who filled out a survey this year, and to those who work year-round to improve student learning.

Joel I. Klein  
Chancellor

**What do the colors mean?**

**Green** indicates high levels of parent, teacher, or student satisfaction compared to other schools. **Red** indicates low levels of satisfaction. In reviewing your school's results, you might look at how well the school performed in each survey category, how well the school did overall, where it has the greatest strength (**green**), and where it needs the most improvement (**red**).

**How did your school perform on the survey compared to all high schools?**

	Score out of 10	Your School's Comparison	Change from Last Year
Academic Expectations	6.5		↑
Communication	6		↑
Engagement	6.1		↑
Safety & Respect	6.6		↑

**What are your school's strengths and areas for improvement?**

## How can you use survey results to improve your school?

You and your school community can use resources created by the Department of Education and the steps listed below to apply survey results to improve the school.

1. **Survey Question-By-Question Results** provide details about how parents, teachers, and students at your school answered all of the survey questions, where your school earned the highest marks, and where your school most needs to improve.
2. **Survey Quest** allows you to compare your school to similar schools that may have performed higher on particular survey questions or groups of questions. Your school can reach out to school leaders at high-performing schools to learn what they have done to get strong results.
3. **The Survey Checklist for School Leaders** helps schools set goals to improve response rates and increase parent, teacher, and student satisfaction. Setting goals with input from parents, teachers, and students is essential to improving learning conditions at schools.
4. The **Comprehensive School Education Plan (CEP)** and **Quality Review** are two opportunities for all members of the community to come together and examine school-wide improvement goals. In these and other planning activities, survey results provide useful information about conditions at schools that support learning and those that need to improve.

This report provides all questions and a summary of the responses that parents, teachers and students at your school provided on the 2009 NYC School Survey. This report can be used as a partner with the NYC School Survey Report.

Parent responses are listed first followed by student and teacher responses. Questions are assigned to and sorted by four categories: Academic Expectations, Communication, Engagement and Safety and Respect.

All numbers below are percentages. The most common answer is bolded to provide an at-a-glance sense of whether your school feels positively or not.

Question scores are between 0 and 10, and the highest possible score is 10. The score can be found in parentheses after each question.

This report provides all questions and a summary of the responses that parents, teachers and students at your school provided on the 2009 NYC School Survey. This report can be used as a partner with the NYC School Survey Report.

Parent responses are listed first followed by student and teacher responses. Questions are assigned to and sorted by four categories: Academic Expectations, Communication, Engagement and Safety and Respect.

All numbers below are percentages. The most common answer is bolded to provide an at-a-glance sense of whether your school feels positively or not.

Question scores are between 0 and 10, and the highest possible score is 10. The score can be found in parentheses after each question.
