Additional Information

Closing the Achievement Gap

Schools earn additional credit when their high-need students achieve exemplary outcomes. In high school, our ultimate goal is for all students to graduate ready for college.

Schools can also earn additional credit based on the percentage of overage/under-credited students who score a 75 or higher on the English Regents or on a Math Regents.

This component can only improve a school's Progress Report grade. It cannot lower a school's grade.

Table with 3 columns: Credit, Exemplary Outcomes, Additional Credit Category. Rows include Weighted 6-Year Diploma Rate (85.7%, 60.7%, 74.8%) and Percentage of Over-age/Under-credited Students (25.8%, 73.1%).

Peer Schools

Each school's performance is compared to the performance of schools in its peer group. Peer schools are those New York City public schools with a student population most like this school's population.

For Transfer Schools, peer schools are determined based on two factors: 1) the average ELA and Math proficiency levels of the school's students before they entered High School, 2) the percentage of special education students, and 3) the percentage of self-contained special education students.

## HOW TO INTERPRET THIS CHART

A school is evaluated by asking how far its score in each category has moved along the range of scores for peer schools. These charts show that movement as a percentage. In the example to the right, the school's score is 75% of the way from the lowest to the highest score among its peers.

If a school performs at the top end of the range, the bar will be fully shaded. If a school performs at the low end of the range, the bar will not be shaded. If a school performs in the middle of the range, half the bar will be shaded.

In this example, the school's engagement score is 9.0. This is 75% of the way from the lowest engagement at any school (6.0) to the highest engagement (10.0).

Below, the green charts compare the school to all other schools in its peer group. The ranges are based on the outcomes of these schools from 2006-07, 2007-08, and 2008-09.
