

Dear Members of the School Community,

This report tells you what parents, teachers, and students said about learning conditions at your school in our annual survey. This information is designed to support a dialogue among all members of the school community on how to make the school a better place for learning.

Taking the time to reflect on how well we serve children is an important step in improving our schools. I encourage schools to plan opportunities to discuss these survey results with the school community, and integrate this feedback into preparation for the school's Comprehensive Education Plan and Quality Review.

Dennis M. Walcott
Chancellor

What do the colors mean?

These colors indicate how the survey satisfaction scores at this school compare to the satisfaction scores of all Middle / High Schools this year. Green indicates scores above the average, gray indicates average, and red indicates scores below the average.

This year, constituents generally reported high levels of satisfaction across the City. Therefore, it is possible to have positive survey responses and be below average compared to other schools. Readers should consider the survey responses in this report both on their own and in the context of responses from other schools.

How do your school's scores compare to all Middle / High Schools?

Table with 4 columns: Category, Score out of 10, Change from last year, Citywide Average for all Middle / High Schools. Rows include Academic Expectations, Communication, Engagement, and Safety & Respect.

How did participants at your school respond?

Your School ———  
City Average - - - - -

This report provides all survey questions and a summary of the responses that parents, teachers, and students at your school provided on the 2011 NYC School Survey.

Parent survey responses are listed first, followed by student and teacher responses. Questions are sorted by four categories: Academic Expectations, Communication, Engagement, and Safety and Respect.

Responses to each question are reported as percentages. The most common response to each question is displayed in bold print.

Scores for each question are reported as a number in parentheses between 0 and 10; the highest possible score for each question is 10.
