PROGRESS REPORT		
<b>NA</b>	OVERALL SCORE <b>NA</b>	out of 100 <b>NA</b>
		OVERALL PERCENTILE <b>NA</b>
This school's overall score is greater than or equal to that of NA High Schools		
For high schools, grades are based on cut scores determined prior to the release of the Progress Report. Further, schools with a four year graduation rate in the top third citywide cannot receive a grade lower than a C. Schools in their first year, without a graduating class or in phase out receive a report with no grade or score.

QUALITY REVIEW	
<b>P</b>	
Proficient (2009-10)	
The rating is based on three major categories of school performance: instruction that prepares students for college and careers, school organization and management, and quality of the learning environment.	
A school that receives a Proficient rating typically demonstrates solid teaching and learning practices, effective school management, and a quality learning environment. For more information, see:

### Overview

Each school's Progress Report (1) measures student year-to-year progress, (2) compares the school to peer schools, and (3) rewards success in moving all children forward, especially children with the greatest needs.

CATEGORY	SCORE	GRADE	DESCRIPTION
<b>Student Progress</b>	out of 55	<input type="text"/>	Student Progress measures the annual progress students make toward meeting the state's graduation requirements by earning course credits and passing state Regents exams.
<b>Student Performance</b>	out of 20	<input type="text"/>	Student Performance measures how many students graduated within 4 and 6 years of starting high school, and the types of diplomas they earned.
<b>School Environment</b>	out of 15	<input type="text"/>	School Environment measures student attendance and a survey of the school community rating academic expectations, safety and respect, communication, and engagement.
<b>College and Career Readiness</b>	out of 10	<input type="text"/>	College and Career Readiness measures how well students are prepared for life after high school on the basis of passing advanced courses, meeting English and math standards, and enrolling in a post-secondary institution.
<b>Closing the Achievement Gap</b>	(16 max)	<input type="text"/>	Schools receive additional credit for exceptional graduation and college/career readiness outcomes of students with disabilities, English Language Learners, and students who enter high school at a low performance level.
<b>Overall Score</b>	out of 100	<input type="text"/>	The overall grade is based on the total of all scores above. Category scores may not add up to total score because of rounding.

### Progress Report Implications

Strong Progress Report results are the basis for recognition and potential rewards for school leaders, and poor results are an important factor in determining whether schools require intensive support or intervention. For more information, see:

<http://schools.nyc.gov/community/planning/Support+and+Intervention.htm>

### State Accountability

The school's current status: **In Good Standing**

This designation is determined by the New York State Department of Education under the Elementary and Secondary Education Act (ESEA) Flexibility Waiver. More information on New York State accountability can be found here:

<http://schools.nyc.gov/Accountability/tools/accountability/default.htm>

GRADE	GRADE	SCORE RANGE	Student Progress represents 55% of the total score. The grade is based on the annual progress students make toward meeting the state's graduation requirements by earning course credits in core subjects and passing state Regents exams. Attention is given to all students in the school and particular emphasis is given to the one-third of students who entered high school at the lowest performance level.

TOTAL POINTS

**How To Interpret These Charts**

To determine the number of points earned, this school's 2011-12 results on each metric are compared to the historical results of peer schools and all high schools citywide. The comparison to peer schools is worth 75% of the points for each metric and the comparison to all high schools citywide is worth 25% of the points. The bars represent the range of results for the peer and city comparison schools for the previous five school years that are within two standard deviations of the average. The percent of the range that is shaded is the school's share of possible points. The share is multiplied by the weight (75% or 25%) and the possible points for the metric to determine the points earned.

**Score Calculation Example**

FORMULA	( PERCENT OF PEER RANGE x 0.75 + PERCENT OF CITY RANGE x 0.25 ) x	POINTS POSSIBLE	=	POINTS EARNED
EXAMPLE	( 60% x 0.75 + 80% x 0.25 ) x	5	=	3.25

GRADE	GRADE	SCORE RANGE	Student Performance represents 20% of the total score. The Student Performance grade is based on how many students graduated within 4 years and 6 years of starting high school, and the types of diplomas these students earned.

A school earns additional credit when each high-need student meets the success criteria for an eligible metric. The number of points will depend on the percentage of the school's population that is in the high-need group, the percentage of that group that is successful, and a "fixed point value" based on how difficult it is to achieve the success criteria. Additional Credit can only improve a school's Progress Report score. It cannot lower a school's score. High schools are eligible for points on 7 additional credit metrics, each of which is worth up to 2 points. (In the table below, "." in "This School's Results" indicates that a school has fewer than five eligible students in one of the categories.)

## PEER INDEX CALCULATION

The Peer Index is used to sort schools on the basis of student population. A lower Peer Index indicates a higher need population. The Peer Index operates on a 1.00-4.50 scale and is calculated using the following formula.

$$\text{FORMULA} \quad \left( \frac{\text{Average 8th grade English and Math proficiency}}{\right) - \left( 2 \times \frac{\% \text{ students with disabilities}}{\right) - \left( 2 \times \frac{\% \text{ in self-contained settings}}{\right) - \left( \frac{\% \text{ students average}}{\right) = \text{PEER INDEX}$$

$$\text{FOR THIS SCHOOL} \quad \left( \frac{2.57}{\right) - \left( 2 \times \frac{21.8\%}{\right) - \left( 2 \times \frac{8.5\%}{\right) - \left( \frac{17.4\%}{\right) = 1.79$$

## PEER GROUP FOR: International Arts Business School

Each school's performance is compared to the performance of schools in its peer group. Peer schools are those New York City public schools with a student population most like this school's population, according to the Peer Index. Each high school has up to 40 peer schools.

This Additional Information page provides context to view how a school's metrics were calculated on the previous pages of this report. Certain Progress Report metrics require that students reach one of many thresholds, or reach multiple thresholds in tandem to earn credit for their school. While all information on this page is not scored, the Additional Information page meaningfully illuminates or adds context to how a school received its metric values in the 2011-12 school year.
