

NYC School Survey 2012-2013 Report

Principal: LAMSON LAM
School Type: Elementary / Middle School
School DBN: 23K184

Dear Members of the School Community,

This report tells you what parents, teachers, and students said about learning conditions at your school in our annual survey. This information is designed to support a dialogue among all members of the school community on how to make the school a better place for learning.

Taking the time to reflect on how well we serve children is an important step in improving our schools. I encourage schools to plan opportunities to discuss these survey results with the school community, and integrate this feedback into preparation for the school's Comprehensive Education Plan and Quality Review.

Dennis M. Walcott
Chancellor

What do the colors mean?

These colors indicate how the survey satisfaction scores at this school compare to the satisfaction scores of all Elementary/Middle Schools this year. Green indicates scores above the average, gray indicates average, and red indicates scores below the average.

This year, constituents generally reported high levels of satisfaction across the City. Therefore, it is possible to have positive survey responses and be below average compared to other schools. Readers should consider the survey responses in this report both on their own and in the context of responses from other schools.

How do your school's scores compare to all Elementary/Middle Schools?

Parent survey responses are listed first followed by student and teacher responses. Questions are sorted into five categories: Academic Expectations, Communication, Engagement, Safety and Respect, and questions that are not scored.¹

Responses to each question are reported as percentages. The most common response to each question is displayed in bold print.

Scores for each question are reported as a number between 0 and 10 in parentheses next to each corresponding question; the highest possible score for each question is 10.
