The School Quality Snapshot provides families with information about the quality of a school by taking a balanced look at the school's practices, environment, and performance. The report is based on multiple measures, including a review by an experienced educator, survey responses of students, teachers, and parents, and a variety of achievement and progress measures. The report also helps families identify what the school is doing well and areas for doing better.

This report, along with the School Directory, can help families with the school admissions process by helping them identify which schools best meet the interests and needs of their child. The Snapshot also provides useful information to families about their child's current school so that families can have meaningful conversations with school leaders about how to make the school a better place to learn.

SCHOOL OVERVIEW (From MS Directory)

Working closely with our partners – Solar 1, The Children's Environmental Foundation, and the Children's Aid Society – P.S. 5 will create new learning experiences that educate whole children, support good health and nutrition, and prepare them for future green careers. We use STEM approaches to integrate core curriculum with sustainability themes. We believe that meaningful hands-on learning experiences engage students and support improved academic performance. Our sustainability teachers and garden coordinator will differentiate inter-disciplinary units and activities to provide multiple entry points for students across a wide spectrum of abilities and interests. We also plan to include entrepreneurial experience by developing a school-based Community Supported Agriculture program...

KEY:

QUALITY REVIEW

An evaluation of the school by an experienced educator based on a formal school visit. The educator observes classrooms and engages in conversations with parents, students, teachers, and school leaders to assess schoolwide practices. The Quality Review provides specific feedback to support the school's efforts. The Quality Review information displayed here reflects the most recent year that a Quality Review was conducted at this school. Some schools will not have Quality Review information if they opened within the last two years or if their most recent review took place prior to August 2010.

Most Recent Quality Review:

May 12-13, 2014

Principal at Time of Review:

Cynthia Rochez

How interesting and challenging is the curriculum?
