The School Quality Snapshot provides families with information about the quality of a school by taking a balanced look at the school's practices, environment, and performance. The report is based on multiple measures, including a review by an experienced educator, survey responses of students, teachers, and parents, and a variety of achievement and progress measures. The report also helps families identify what the school is doing well and areas for doing better.

This report, along with the School Directory, can help families with the school admissions process by helping them identify which schools best meet the interests and needs of their child. The Snapshot also provides useful information to families about their child's current school so that families can have meaningful conversations with school leaders about how to make the school a better place to learn.

SCHOOL OVERVIEW (From MS Directory)

P.S. / I.S. 26 is a multicultural school with approximately 1380 students, 350 of which are in our small and intimate middle school. Students have the opportunity for highly engaging discussions centered on critical thinking. Staff and administrators know students by their names and support their individual needs. Parents often want their child to attend our school because they feel confident that their child is in a highly rigorous school that keeps their children safe. Parents also have the opportunity to come to our monthly open house, which is always supported with a workshop based on their needs. Students enjoy a healthy balance of strong academic instruction along with opportunities to develop their strengths in technology and the arts...

KEY:

QUALITY REVIEW

An evaluation of the school by an experienced educator based on a formal school visit. The educator observes classrooms and engages in conversations with parents, students, teachers, and school leaders to assess schoolwide practices. The Quality Review provides specific feedback to support the school's efforts. The Quality Review information displayed here reflects the most recent year that a Quality Review was conducted at this school. Some schools will not have Quality Review information if they opened within the last two years or if their most recent review took place prior to August 2010.

Most Recent Quality Review:

November 28-29 2011

Principal at Time of Review:

Deirdre Keyes
