The School Quality Snapshot provides families with information about the quality of a school by taking a balanced look at the school's practices, environment, and performance. The report is based on multiple measures, including a review by an experienced educator, survey responses of students, teachers, and parents, and a variety of achievement and progress measures. The report also helps families identify what the school is doing well and areas for doing better.

This report, along with the Middle School Directory, can help families with the school admissions process by helping them identify which schools best meet the interests and needs of their child. The Snapshot also provides useful information to families about their child's current school so that families can have meaningful conversations with school leaders about how to make the school a better place to learn.

SCHOOL OVERVIEW (From Directory)

Students reach demanding academic, social and emotional goals in a student-centered learning environment. They use computers and SMART Board technology in all subjects, and engage in self-exploration via Advisory, electives and after-school offerings. Parents appreciate our focus and attention to each student's background, special gifts and learning style. Computer School students make numerous trips to New York City cultural institutions to magnify learning experiences. Students leave Computer School exceptionally well-prepared for high school.

KEY:

QUALITY REVIEW

An evaluation of the school by an experienced educator based on a formal school visit. The educator observes classrooms and engages in conversations with parents, students, teachers, and school leaders to assess schoolwide practices. The Quality Review provides specific feedback to support the school's efforts. The Quality Review information displayed here reflects the most recent year that a Quality Review was conducted at this school. Some schools will not have Quality Review information if they opened within the last two years or if their most recent review took place prior to August 2010.

Most Recent Quality Review:

April 13-14, 2011

Principal at Time of Review:

Henry Zymeck

How interesting and challenging is the curriculum?

How effective is the teaching and learning?

How well does the school assess what students are learning?
