2013-2014

The School Quality Snapshot provides families with information about the quality of a school by taking a balanced look at the school's practices, environment, and performance. The report is based on multiple measures, including a review by an experienced educator, survey responses of students, teachers, and parents, and a variety of achievement and progress measures. The report also helps families identify what the school is doing well and areas for doing better.

This report, along with the School Directory, can help families with the school admissions process by helping them identify which schools best meet the interests and needs of their child. The Snapshot also provides useful information to families about their child's current school so that families can have meaningful conversations with school leaders about how to make the school a better place to learn.

SCHOOL OVERVIEW (From MS Directory)

Students enjoy a differentiated curriculum which stresses critical thinking, creative problem solving and independent group research. Classrooms have wireless internet access and interactive technology in the form of SMART Boards and laptops. Students meet on a weekly basis in small groups for Advisory Meetings with their homeroom teachers to discuss any academic and/or social issues that are on their minds. Manhattan School for Children (MSC) parents and students appreciate a sense of community, supportive teachers and differentiated instruction. Additionally, MSC KidsNet, a school intranet site, helps facilitate communication among the staff, parents and students. MSC has an "open door" policy for parents to drop off/pick up their kids at the classroom door...

KEY:

QUALITY REVIEW

An evaluation of the school by an experienced educator based on a formal school visit. The educator observes classrooms and engages in conversations with parents, students, teachers, and school leaders to assess schoolwide practices. The Quality Review provides specific feedback to support the school's efforts. The Quality Review information displayed here reflects the most recent year that a Quality Review was conducted at this school. Some schools will not have Quality Review information if they opened within the last two years or if their most recent review took place prior to August 2010.

Most Recent Quality Review:
